

HARVEST REMINDERS

GRAIN

Store or Sell? Grain from each field will be stored five (5) days after completion or lack of activity.

Notify BEI when each field is complete.

Bushel Application to Fall Contracts Contract payments will NOT be made until BEI is instructed to do so.

Old Grain in the elevator at the end of September will produce a storage bill during October and due November 1, 2020 for one year's storage.

SIGN UP to RECEIVE GRAIN BIDS ELECTRONICALLY

Call the Deer Creek office with your email address or cell phone number to receive daily grain bid updates!

ELEVATOR

Tenants It is your responsibility to inform landlords of grain deliveries.

New Farm Names, Splits or Existing Farm Name Change Notify the Deer Creek office of any changes to avoid delays at the elevator scale!

Correct Information Be ready to provide First Name, Last Name and Farm Name to the scale operator.

Check scale ticket for accuracy before leaving the elevator - this is your grain receipt!

Empty Trucks As a courtesy, please ask drivers to give priority to empty trucks over loaded trucks at the scales.

NonGMO BEAN CUSTOMERS

Drivers Communicate to the scale operator that you have Non-GMO beans BEFORE dumping!

Zero Tolerance for corn in Non-GMO beans!

Moisture content must be below 14.2%.

Thank you for your business! Have a safe and enjoyable harvest season!

2019 CARRYOVER GRAIN

Price Later Monthly Rates continue but there will be NO new minimum on price later grain carried forward.

Open Storage Grain moved to price later prior to harvest WILL NOT incur a new minimum charge and will continue at a monthly rate.

Open Storage Grain not moved to price later will incur a new minimum charge on October 1st.

Contact the Deer Creek office if you would like to move grain to price later!

SHRINK

CORN

Corn stored to be shrunk to 14%

Corn sold for harvest delivery to be shrunk to 15%

Moisture averaged per farm

BEANS

Beans 13.1% to 16% will have a shrink factor of 1.5% of weight reduction for each 1/2% of moisture

Beans over 16% moisture will have a shrink factor of 2.0% of weight reduction for each 1/2% of moisture

Moisture discounted load by load
