Storage: Harvest to January 1, 2022 is \$0.17 and then \$0.03/Month pro-rated.

Price Later: This rate changes according to market factors, but you may lock it in by notifying us.

Shrink: Will be to 15% if Sold or 14% if placed in Storage or Price Later during Harvest. The shrink factor is **1.35** and the moisture is averaged per farm.

SOYBEANS

Moisture Discount:

0.3% shrink for each 0.1% moisture from 13.0% to 14.0%		All loads above 14.0% stand alone	
14.01 - 14.50% -4.5%	14.51 - 15.0% -6.0%	15.01 - 15.5% -7.5%	15.51% - 16.0% -9.0%
2.0% for each 0.5% moisture greater than 16.0%			

Storage: Harvest to January 1, 2022 is \$0.18 and then \$0.03/Month pro-rated.

Price Later: This rate changes according to market factors, but you may lock it in by notifying us.

Soybeans 14% and above will stand on their own. Soybeans 13.9 % and below will be averaged daily.

GENERAL

Let us know your choice whether to Store, Sell, or put on Price Later as soon as you are done with each farm. If not notified otherwise, each lot of grain will be automatically stored 7 days after completion or lack of activity. Producers, please keep Landlords informed!

Market scale of discounts to apply for any factors below grade.

It is the **Drivers Responsibility** to be sure each scale ticket is made out to the correct person(s). If someone else is hauling for you, be sure they are informed.
